

BUILDING LINKS BETWEEN EUROPE AND AFRICA IN PERSONALISED MEDICINE

The **EU-Africa PerMed project** funded by the European Commission's H2020 framework programme seeks to develop international collaborations and identifying future actions in personalised medicine to be established between Africa and Europe. The objective is to build a lasting relationship between these two continents in terms of research, development, innovation and implementation for a better integration of the African needs in the international agenda for personalised medicine.

JOIN US IN THE PROJECT INFORMATION DAY, A 1H WEBINAR TO LEARN ABOUT THE PROJECT OBJECTIVES, PLANNED ACTIVITIES AND EXPECTED RESULTS. It is thought of as a warm-up event prior to the 1st stakeholder workshop that will take place in Kenya on the 9th and 10th of February 2022.

EU-AFRICA PerMed INFO DAY AGENDA
