

L&T COLLOQUIUM 2025

**THEME: HEALTH SCIENCES EDUCATION IN CONTEXT -
INNOVATION AND NEW DIRECTION**

16 & 17 JULY 2025 - OCEAN SCIENCES CAMPUS , B-BLOCK, CONFERENCE HALL

higher education
& training
Department:
Higher Education and Training
REPUBLIC OF SOUTH AFRICA

This L&T Colloquium is supported by the Department of Higher Education and Training (DHET) through the University Capacity Development Grant (UCDG)

INTRODUCTION

Health service delivery in South Africa takes place against specific socio-economic challenges such as limited resources, inequalities, geographical inequalities and a rapidly expanding need for digitally competent health and wellness practitioners. Innovations in health sciences education must focus on improving access to services for all, across socio-economic and geographical diversities. This colloquium sets out to focus on innovations in pedagogy and programme delivery that stimulate critical thinking and engagement through our classroom practices with a purpose to enhance student success and well-being while developing health and wellbeing practitioners who are socially responsive citizens and transformative practitioners. The colloquium, taking place over two days will host panel conversations, presentations, workshops and poster presentations around the seven sub-themes.

Please note: This L&T Colloquium is accredited for CPD Points

THEME AND SUB THEMES

- THEME:** Health Sciences Education in Context - Innovation and New Direction
- SUB-THEME 1:** Pedagogies for critical engagement in Health Sciences Education for the future
